A PLACE FOR MANY EXPERIENCES

The name Artipelag is a combination of Art, Activities, and Archipelago. It says a lot about what we can offer, but it does not tell it all. Our intention has been to create a destination of high international quality – with boundary-crossing art exhibits, inspiring activities, and tasty food.

There is ample space here – about 32,000 square feet – for a large exhibition hall and a shop with our own custom-designed products. The site also boasts our Artbox, an enormous concert – event – and studio locale of 13,000 square feet with accompanying artists' spaces. There are also activity spaces for children and youngsters, conference rooms of varying size, and two restaurants – both with outdoor serving and magnificent sea views.

Welcome to Artipelag
