ARTBOX – TECHNICAL

TRUSS AND HOIST SYSTEM

10 sections of 12 m Prolyte S36R trusses, utilizing 1 tonne chainmasters, trim height approx. 7.5 m. The hoists are controlled using wireless remotes. The trusses are distributed over the hall and each truss can be moved 10 m lengthwise across the Artbox. This is done easily by hand. Each and all of the trusses can carry 900 kgs center point load.

ON EACH TRUSS FOR CLIENT USE:

- 1 x etherconn connector (ArtNet).
- 1 x DMX 5 pin connector, universe 1-16, client's choice.
- 10 x switched shucko outlets (13 Amp) controlled by DMX.
- 1 x 32 amp CEE 5 pin

EXTRA TRUSS:

- 2 x Prolyte S36R (3 m) for connecting 12 m house trusses.

FIXTURES:

- 40 x Martin Mac Aura.
- 8 x VL 1100 TSD.
- 26 x ADJ flat par tri18x with flaps, dual bracket yoke (floor).

LIGHT CONSOLE:

- 1 x GrandMA2 Light console, applicable anywhere in Artbox, (6000 free parameters for client use).
- 1 x MA2 OnPC back up system.

DMX SYSTEM:

DMX distribution through ArtNet using the following nodes:

- 1 x ELC 8 port Node, portable, (ex. DMX- in for clients light consoles)
- 3 x ELC 3 port Node, portable.
- 1 x ELC 8 port Node, fixed in "power room".
- 10 x ELC 3 port Node, fixed on trusses (1 free DMX 5 pin per truss, as mentioned above).

PA:

- Hanged in 2 clusters with the possibility to move lengthwise ~10 m.
- 24 x L-acoustics Kiva, flown.
- 4 x L-acoustics SB18i, flown.
- 2 x L-acoustics SB28, floor.

MICROPHONES:

- 4 x head microphones (HSP4 and 4 x SK 500 belt pack), incl. 4 x EM500 receiver (fixed).
- 4 x handheld microphones (SK935), incl. 4 x EM500 receiver (fixed).
- 2 x Neumann KMS 104.
- 8 x gooseneck table microphones.
- 2 x long gooseneck lectern microphones.

SOUND PROCESSING:

- 1 x Sound console Allen & Heath GLD80, 32/16.
- 1 x Stage box A&H AR2412 (portable).
- 1 x Expander A&H AR0804 (fixed).
- 1 x Yamaha DME processor (fixed).
- 1 x dB measuring unit, RT-Capture.
- 1 x PC with L-acoustics network manager.

POWER & SIGNAL DISTRIBUTION IN THE WALLS:

- 32 amp 5 pin CEE form. (18 outlets)
- Shucko.
- Fiber net Multi mode.
- Stage boxes for audio (analogue).

POWER & SIGNAL DISTRIBUTION IN THE FLOOR:

- 16 amp 5 pin cee form (10 outlets).
- Shucko.
- Ethernet.
- Stage boxes for audio (digital and analogue).

SOFT GOODS:

Black wool curtains hanging from tracks, enough to cover entire room with 50% folding capacity, 200 m of fabric. Extra track to hang other fabrics around the entire room. 29 m curtain track with black wool fabric to be used as room divider or curtain (on separate truss).

ARTBOX POWER ROOM (MAX 400A TOT.):

- 2x 400 amp Power lock.
- 2x 125 amp 5 pin cee form.
- 2 x 63 amp 5 pin cee form.
- 2 x 32 amp 5 pin cee form.
